

## 2022 Mitchell Field Survey Question C-1 Responses

<b>C-1 When you come to Mitchell Field where do you usually park? (671 responses)</b>
I go by bicycle
I walk from my house nearby
I walk over
I walk there
walk from home
walk there
walk over
We live close enough to walk, not drive
we walk to the park - adjacent property
Behind Pammy's
up in that lot that is close to Pammy's
on road to Bandstand
n/a. If it is needed (more parking) go for it! Not familiar with terrain
Allowing cars into the Mitchell Field was a mistake in my opinion.
I don't usually park because of volunteer/brush hauling activities.
don't go
never
never
Depends on activity. parking is convenient and easy
<b>PLENTY OF PARKING, DO NOT SUPPORT ADDITIONAL PARKING</b>
rarely do I feel unsafe, sometimes Pammy's Ice Cream customers take the MF entrance spots.
vehicles occasionally drive too fast
limit cars in the middle and near shore to short term, launching, or HC
parking depends on the activity. Additional parking - depends on what parking is for - should be close to Town Center
sometimes where there are any!
somewhat likely to support additional parking especially if put in a boat launch. Very occasionally feel unsafe with traffic but I don't know how you would convince
suggestion: not too much pavement! Maybe marked grass parking?
vehicles go too fast
very likely to support additional parking if mooring fees cover parking for mooring access
Need handicap - people who aren't handicapped park there and it isn't well marked as handicapped.
occasionally feel unsafe with traffic - only when kids on bikes

## 2022 Mitchell Field Survey Question C-1 Responses

occasionally feel unsafe, if biking (no shoulder)
painting lines in parking area would help
too far from activities at main entrance
depends on what we are doing
I support additional parking if there are times when there is a problem.
additional parking someone likely to support - depends on where it would be located. Not in meadow or waterfront!
do not support additional parking if it means destroying existing, empty buildings
Additional parking not likely to support, I wouldn't want any disturbances of existing grass or asphalt. There is plenty of parking as it is. Do not put in meadows or at waterfront. Occasionally feel unsafe from speeders
concerts can be interesting pending time you arrive.
developing additional parking would depend on location
Somewhat likely to support additional parking. Not pavement - either on the grass or stone dust and not at the waterfront. Next to the bandstand and across street from it (in the meadow)
Rework what parking is at the waterfront to be more efficient. Parking in the meadow - would this not cover up meadowland with parking?
We have never seen a parking problem, we don't need anymore concrete. People drive too fast.
currently there may not be a need for additional parking
handicapped [parking]
annoyed by speedy drivers - not unsafe.
It's so nice to have a place without a lot of pavement. We have too much asphalt and concrete in this world. I absolutely do NOT support more parking somewhere in the meadows!
have always found parking
occasionally unsafe - drivers going too fast
so far no issue with parking. If additional parking - not in field. Regularly feel unsafe - rare that vehicles is going 15 mph
support of additional parking depends where [it would be located]
occasionally problem parking at entrance
One weekend I had trouble parking. I usually don't go on weekends. During summer - too crowded. The parking areas are sufficient to accommodate the appropriate amount of people to keep the park from being too crowded.
I love the green space and find parking when I need it.
The road is wide enough for two cars and a dog walker .. most people go slow enough, even if they are not following the speed limit.
would support more parking by bandstand
along the edge of the road during concerts
along the roads which you no long[er] allow.
along the road during concerts

## 2022 Mitchell Field Survey Question C-1 Responses

along the road during bandstand concerts
along road during concerts (occasionally only place to park).
In the field during Bandstand concerts (99 responses)
In the spaces at the entrance (268 responses)
At the Community Garden (10 responses)
In the spaces at the waterfront (276 responses)
In the parking lot behind the Administration Building near the beach (149 responses)
In the paved area uphill from the Bandstand (120 responses)
