

# Energy and Technology Committee

## Mission Statement

The Energy and Technology Committee shall recommend policies to the Select Board that reduce energy consumption in the Town of Harpswell by encouraging energy conservation and shall promote the use of renewable energy resources. The Committee shall provide leadership and direction for community education relating to energy conservation and use of renewable energy resources; shall propose and explore funding for local energy project(s); shall coordinate activities with other local, regional and state organizations working through the Town staff and shall serve other purposes related to energy as specified by the Select Board.

The Committee shall assist and advise the Town and the community at large in the selection of appropriate current technology to optimize operations, improve services, and meet or exceed the energy, business objectives, and financial goals for Town of Harpswell and its residents. The Committee will address issues as directed by the Select Board and from time to time may recommend projects to the Select Board for consideration.

Adopted by the Board of Selectmen October 26, 2017
